

WEAPONISED TECHNOLOGY

CAUSING CANCER

5G is considered the next major phase of mobile telecommunications and is expected to be much faster than 3G and 4G.

But 5G is completely different technology being named more of a weapon by leading experts such as Barry Trower - microwave weapons expert.

5G uses a millimetre pulsating wave with 2000% more radiation than 4G.

These tiny millimetre waves are determinantal to our DNA and will cause cancer.

5G antennas are being installed in millions of detinations worldwide to ensure all airwaves are connected.

EFFECTS OF 5G

5G HEALTH EFFECTS

- ADHD
- Autism
- Skin Cancer
- Brain Cancer
- Fertility Issues
- Cataracts
- Hair loss
- Nose Bleeds
- Heart Arrhythmias
- DNA Strand Breaks
- Oxidative Damage
- Disruption of Cell Metabolism
- Increased Blood Brain Barrier Permeability
- Melatonin reduction

WHO International Agency for research of cancer. May 2001

Classifies (RF) Radio Frequencies as a class 2B possible carcinogen Robert Baan - IARC Monographs.

The Classification 2B, possible carcinogenic, holds for all type of radiation within the radio frequency part of the eletromagnetic spectrum including the radiation emitted by base stations antennas, radion/TV towers, radars, WIFI, smart metres etc

join us in a liability action to stop 5G check out our website for more details.
